## Specific Provisions Journals

### 1. Journals

The journals listed in Section 6 (the "Subscribed Journal(s)" or the "Subscription") contain the volumes of previous years going back to 1997 if available (the "Complimentary Volumes").

### 2. Print and Electronic Journals

2.1 Licensee may substitute a print subscription with an e-only-subscription subject to appropriate adjustment of the License Fee, by giving Springer notice in writing on or before September 1<sup>st</sup> with effect for the following Subscription Year.

2.2 In the event that any Subscribed Journal is no longer included in Springer's Websites, Licensee may substitute any such Subscribed Journal with another Journal of equivalent value (current year list price) at any time upon written notice to Springer. In case Licensee does not choose another Journal, the License Fee will be reasonably decreased.

### 2.3 Deleted.

2.4 In case Licensee orders the print versions of its Subscribed Journals from Springer or from an agent in addition to its e-only-Subscription under this License Agreement, Licensee is entitled to a discount of [Text](#) of the list price of the print version, excluding postage and handling fee ("Deep Discounted Print" or "DDP"). The order shall include the indication that Licensee orders the print versions of the Subscribed Journals under the DDP, otherwise Licensee is not entitled to any refund from Springer. This Section does not apply to Non-Subscribed Journals or Complimentary Journals.

2.5 Licensee may substitute licensed title with journal title of comparable value (in current year list price) no more than once annually by giving Springer notice by January 31 of each year. Such substitutions will not exceed [Text](#) the total list price value of the licensed titles.

### 3. Transfer, Take-Over and New Journals

3.1 If the publishing rights to a Subscribed Journal are transferred to another publisher, Springer will use its best efforts to provide Licensee or - in case of a consortium - those Participating Institutions with a respective Subscription with continuous access to those issues of the Subscribed Journal published during the Term either (a) online on Springer's Websites, (b) online on the new publisher's website, or (c) offline by providing the same on a digital storage medium. If Springer is unable to do any of the foregoing, Springer will offer those Participating Institutions access to another journal of equivalent value.

3.2 In the event that during the Subscription Year, Springer acquires a journal from a third party publisher (the "Take-Over Journal"), Participating Institutions may obtain access and rights to the Take-Over Journal under the following terms:

- a) If one or more Participating Institutions subscribed to the Take-Over Journal during the previous Subscription Year, and (i) the total number of subscriptions of the Participating Institutions to the Take-Over Journal is maintained upon transfer to Springer, and (ii) the total number of subscriptions of the Participating Institutions to the Take-Over Journal meets or exceeds the Multiplier as defined in sub-paragraph (c), Springer will provide access and rights to the Take-Over Journal to all Participating Institutions at no additional cost.
  - b) If the provisions of sub-paragraph (a) are not satisfied, Licensee may add the Take-Over Journal to the title list and the License Fee for the Subscribed Journals shall be increased by the product of the Multiplier and the list price of that Take-Over Journal. If Licensee declines this option, Springer will grant access and rights to the Take-Over Journal only to those Participating Institutions that hold a subscription to that Take-Over Journal.
  - c) Titles added by the licensee will be added at a value of the current year list price times the number of existing licensee subscriptions (CDL Member subscriptions), or if there are not existing subscriptions, multiplied by [     ]. Springer will notify Licensee by October 1st of each year of titles transferring to Springer for which UC has current subscriptions (campus or system-wide subscriptions).
- 3.3 Electronic access to new, start-up journals initiated by Springer (the "Start-Up Journals") will be included at no additional cost during the first two years of their publication(the "Grant Period"). Licensee has no archival rights with regards to the Start-up Journals during the Grant Period.
  - 3.4 In the event that Licensee wishes to subscribed to any of the Start-Up Journals during or after the expiry of the Grant Period (the "New Journals" ),those New Journals will be added to the list of Journals set out in Section 6 by signing an Amendment to this attachment. The value of the start-up journals will be added to the license Fee. License will then have continuous access to the added New Journals.
  - 3.5 Should Licensee decide to restore journals cancelled in 2011, the cost to restore each journal shall be equal to the cancellation value of that journal based on the percent of 2010 usage comprised by that title, plus any cumulative capped price increases paid by Licensee in each successive contract year. Changes to the list of Journals set out in Section 6 will be added by signing an Amendment to this attachment.

#### **4. Term and Duration of Access**

- 4.1 The term shall begin on January 1<sup>st</sup>, 2013 and shall end on December 31<sup>st</sup>, 2015 (the "Subscription Year" or "Term").
- 4.2 After expiration of the Term and subject to Licensee's and Participating Institutions' compliance with it, Licensee and each Participating Institution, shall be entitled to continuous access to all Subscribed Journals. From January 1<sup>st</sup>, 2018, Licensee shall pay an annual hosting fee in the amount of US \$625.00 for access to the Subscribed Journals through Springer's Websites, which will be waived during those years that Licensee and/or any Participating Institution subscribes to or acquires any additional Content. Licensee and Participating Institutions shall be entitled to access the Non-Subscribed Journals and the Complimentary Volumes only during the Term.

## Author Rights Clause To Be Added to CDL Springer Agreement

rev. July 2013

### **Authors' Rights To Use Their Own Work.**

Notwithstanding any terms or conditions to the contrary in any author agreement between authors and Licensor, authors who are Authorized Users of Licensee ("Authors") whose journal articles ("Articles") are accepted for publication by Licensor during the Term shall retain the non-exclusive, irrevocable, worldwide, royalty-free right to use their Articles for scholarly and educational purposes, including self-archiving or depositing the Articles in institutional, subject-based, national or other open repositories or archives (including the author's own web pages or departmental servers), and to comply with all grant or institutional requirements associated with the Articles.

For the avoidance of doubt, it is the intent of the parties to this License Agreement that Licensee's Authors are third party beneficiaries of this provision of the Agreement. Nothing in this section shall eliminate or limit any other rights that Licensee or any Author may have to deposit, host or make available Articles published by Licensor. Licensee will implement access embargoes on Articles deposited in its institutional repository if instructed to do so by Authors.

### **Definitions:**

**Author:** An author of a work published by Licensor who is an Authorized User of the Licensed Materials.

**Articles:** The author's accepted manuscript version (after peer review and including revisions from the peer review process but before copy-editing and final publication) of any work by an Author that is accepted for publication in a journal published by Licensor.

**Scholarly and educational purposes:** Purposes encompassing teaching, research, and institutional needs, including but not limited to the right to (a) use, reproduce, distribute, perform, and display the Articles in connection with teaching, conference presentations, and lectures; (b) make full use of the Articles in future research and publications; (c) update or revise the Articles in whole or in part for later publication; (d) meet requirements and conditions of research grants or publishing subventions provided by government agencies or non-profit foundations, and; (e) grant to the Author's employing institution some or all of the foregoing rights, as well as permission to use the Articles in connection with administrative activities such as accreditation, mandated reports to state or federal governments, and similar purposes. In all cases, the Author and/or the Author's employing institution will be expected to provide proper citation to the published version.

**Repositories or archives:** Open-access digital repository services such as those provided by the Author's employing institution, an academic consortium, a discipline-based entity, or a governmental funding agency.
